PROJECT TITLE: HEDI SLIMANE WEBSITE

I'd like to build a website as a long, single page website. Typical site navigation across the top. I think the content and photographs contribute to one another, and would work well on one long page, in distinct sections.

1. **HOME PAGE:** Introduce Hedi Slimane and the point I want to convey about his bold influence in fashion and photography.
2. **SLIMANE IN FASHION**
3. **SLIMANE'S TIME AT YSL/ REBRANDING OF YSL**
4. **SLIMANE'S ART & PHOTOGRAPHY**
5. **SLIMANE'S FAVORITE BANDS (maybe)**
6. **SOURCES:** The Wikipedia page, as well as sources for photography and other credits that may need to be provided.
